

# Mathison Manufacturing

## OVERVIEW

*Mathison Manufacturing, Inc. is your strategic partner for turn-key manufacturing solutions from components to value-added assemblies. We have been serving the manufacturing community for more than 50 years.*

### ABOUT US

Mathison Manufacturing, Inc. is a well-established contract manufacturing organization built around our metal fabrication expertise. We manufacture products from individual components to complete assemblies.

We partner with OEM companies helping them optimize their cost of manufacturing using our engineering and manufacturing services.

We differentiate ourselves through quick response to our customers' needs and faster speed to market.

With a history of meeting or exceeding our customers' expectations, we have been rewarded with repeat business and long term relationships.

Our mission is to provide the highest quality product possible through highly skilled and dedicated employees and suppliers with state-of-the-art technical and manufacturing processes. We are dedicated to the continual improvement of our products, services and the company itself, through process control, employee empowerment and management commitment.

### MORE THAN METAL

We are able to fabricate a variety of ferrous and non-ferrous metals as well as plastic and phenolic materials up to 6 inches thick utilizing our laser, punch press and dual head water jet.

From cutting, forming and welding intricate designs to customer finish quality and/or cutting unique materials, we welcome the challenge.

Our expert team can assemble your medical carts, sub-assemblies and electromechanical products to save you time and money.

Using Solidworks design software we are able to work with your design models

### CAPABILITIES INCLUDE

- Speed to market
- Product development
- Experts in welding aluminum and thin gauge metals
- Steel, aluminum, copper, brass and plastic fabrication
- Value-added assembly
- Drafting Services
- Prototyping and short-run production
- Weldments
- CNC turret punching
- Laser cutting
- CNC Forming
- Inventory management

### INDUSTRIES SERVED

We manufacture many unique products used in a variety of industries including:

- Water technology
- Medical equipment
- Food Service equipment
- Mobile hydraulic solutions
- Point of Purchase
- Instrumentation panels
- Lighting and signage
- Power distribution
- Marine navigation
